PROFESSIONAL SUMMARY

BCA student and aspiring Software Developer with hands-on experience in web development, MERN stack technologies, Python, Java, JavaScript, PHP, SQL, and database management. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, responsive web development, and CRUD application development. Experienced in building academic projects and practicing problem solving on LeetCode and GeeksforGeeks. Seeking an entry-level Software Developer, Full-Stack Developer, or Web Developer role.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, PHP

Frontend: HTML5, CSS3, JavaScript, React.js, Responsive Web Design

Backend: Node.js, Express.js, PHP

Databases: SQL, MySQL, MongoDB, Database Design, CRUD Operations

Frameworks / Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, SDLC, Problem Solving

Tools: Git, GitHub, VS Code

Libraries: NumPy, Pandas

Soft Skills: Communication, Team Collaboration, Adaptability, Problem Solving

PROJECTS

Company Website | *HTML5, CSS3, JavaScript*

- Developed a responsive company website with structured pages for company information, services, and contact details.
- Implemented responsive web design and reusable page structure for improved cross-device usability.
- Applied HTML5 semantic structure, CSS3 styling, and JavaScript for interactive web functionality.

Student Management System | *Python, SQL, OOP, Database*

- Built a Python-based Student Management System to manage student records using database-backed CRUD operations.
- Implemented Create, Read, Update, Delete, search, and record-management functionality.
- Applied Object-Oriented Programming and database management concepts to organize application logic and data.

Library Management System | *Python, SQLite, OOP*

- Developed a menu-driven library management application for managing books and library records.
- Implemented database operations and structured Python classes to support record management and application workflows.

EDUCATION

Bachelor of Computer Applications (BCA) | 2024–2027 (Pursuing)

Makhanlal Chaturvedi University, Bhopal | SGPA: 8.3 (3rd Sem), 7.9 (4th Sem)

Senior Secondary (Class XII) – Science (PCM) | 2024

Shri Sankar Ji Inter College, Katwa Gahaji, Azamgarh | UP Board | 72%

Secondary (Class X) | 2021

Dhananjay Public School, Atrauliya, Azamgarh | 73.3%

RELEVANT COURSEWORK

Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems (DBMS), Web Technologies, Operating Systems, Computer Networks

PROBLEM SOLVING

Regular programming and problem-solving practice on LeetCode and GeeksforGeeks, with focus on Data Structures and Algorithms, logical problem solving, and coding fundamentals.

ADDITIONAL INFORMATION

Languages: Hindi, English
